
Cell Type

- Atrial cardiomyocytes
- Capillary endothelium
- Cardiac neural crest cells & Schwann progenitor cells
- Endothelium / pericytes / adventitia
- Epicardial cells
- Epicardium−derived cells
- Fibroblast−like (related to cardiac skeleton connective tissue)
- Fibroblast−like (related to larger vascular development)
- Fibroblast−like (related to smaller vascular development)
- Myoz2−enriched cardiomyocytes
- Smooth muscle cells / fibroblast−like)
- Ventricular cardiomyocytes
